FLORAL GUIDELINES

The following guidelines are intended to prevent inadvertent damage to artwork during an event. Naturally, the Center is concerned that, while allowing renters and their floral designers the greatest latitude possible in their creative efforts, consideration is always given to the safety and proper conservation of the art objects in the Center's collection.

- 1) Arrangements should not impede the normal traffic flow through the Center. No limbs or stalks should impede doorways or hallways. Oversized arrangements should be discussed with the Center's representative prior to setup.
- 2) Arrangements should be of a sufficient distance from any and all art to ensure that there is no contact with the work and that an accident would not result in the arrangement toppling into a piece of artwork.
- 3) Plant materials should not touch walls and floors in galleries.
- 4) NO MISTING IS ALLOWED. All containers must be water tight.

The following materials are prohibited:

- Hollow reed basketry materials
- Mosses collected in the forest (nursery grown mosses are acceptable).
- Sod
- Peat moss
- Bird or insect nests

- 6) Use of the following materials should be discussed with the Center's representative:
 - Cacti
 - Seedpods
 - Rooted plant material

7) The use of aerosol cans (lacquer, paint, Wilt-Pruf, etc.) and glue guns are prohibited in the galleries.

8) Materials to be arranged must be in designated area and should be kept atop plastic sheeting (provided by the arranger) during setup. Every effort should be made to confine materials to a small and tidy area.

Only completed arrangements can be moved into the galleries. All plant materials left over must be cleaned up by the arranger and disposed of in a proper waste receptacle.

9) NO ART WORK OR FIXTURES MAY BE MOVED, unless approved by the Director and may only be moved by staff. This is to be agreed upon when contract is signed.

We hope that these guidelines will help answer any questions, and we ask for your cooperation. If you have ANY questions, please call the Center's representative at (229) 247-2787.
